

Surrey Football Club: Return to Play

Field Arrival Instructions & Field Organization

Specific instructions will be provided for specific fields.

Social Distancing at all times on and off field: all participants on and off the field, including parents. We ask that our members limit the amount of family members at the fields for drop off and pick up.

Hand Hygiene: All players will sanitize via Coaches at entrance before coming onto the field. Players will also be screened by coach before entering field.

Training times will be staggered: Players are asked arrive at their field gate no earlier than 10 minutes before session. Players will enter field one at a time at respective gate, and will continue to assigned training space by coach.

Players will NOT be allowed to loiter around after or before training. As soon as training is finished we ask all players to head home. There will be a pick up waiting area for players.

Each Field will have a Technical Field Marshal (ON FIELD), and a Field Marshal OFF FIELD.
